

## Seasonal Updates

Daptiv gives users seasonal updates so customers always have access to the latest features and functionality.

Daptiv PPM (formerly known as eProject PPM6), the most complete on-demand project and portfolio management platform, launches an innovative new Work Intelligence capability with Fall '07 Edition.

## Get Visibility into Your "Mid-office"

Many companies have sophisticated tracking and reporting for the Front Office (CRM) and Back Office (Financial and Manufacturing Reporting). But for tracking Work in the "Mid-office" so crucial to success, companies often find they have:

- ▶ No easy-to-use ad hoc reporting tools
- ▶ No data visualization
- ▶ No systematic process for sharing information

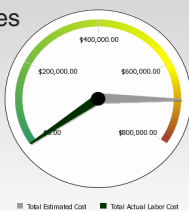

## Introducing Work Intelligence

Daptiv's Fall '07 Edition is the first and only PPM solution to join rich native PPM data capture, custom views and custom data with browser-based reporting and dashboarding tools to create Work Intelligence. By using Fall '07 Edition, companies can get greater visibility into enterprise work, helping them to choose the right work to focus on, align work with strategic priorities, make better decisions and execute more to get better business results.

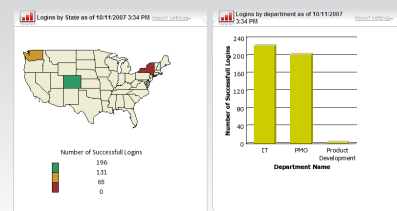

### Executives Can Now:

- See how projects map to strategic priorities
- See portfolio information and company business metrics on the same dashboard
- Better forecast resource, hiring and financial needs
- Get new visibility into the project pipeline (requests, initiatives, etc.)

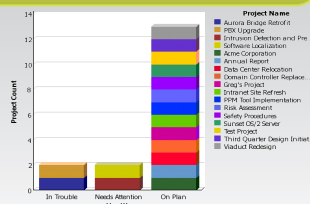

### Analysts Can Now:

- Include virtually any Daptiv PPM data in reports, whether native or custom
- Control data visualization down to the pixel
- Create and publish dashboards to individuals or enterprise roles

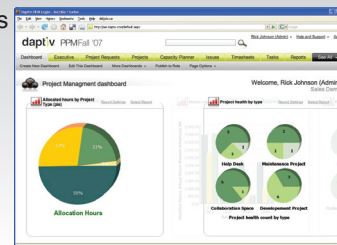

### Managers Can Now:

- More easily match resource supply with demand
- Use historic information to guide planning
- Create ad-hoc reports without developer skills

### Team Members Can Now:

- Add reports to dashboards
- Customize, name and save multiple dashboards via a new drag-and-drop interface

System Requirements: • Microsoft® IE 6+ • Firefox® 1.5+ for Windows®

## Work Intelligence Licensing
